## Training for Specialists

27th & 28th of June 2023

The whole organization of this training was targeting to teach/ educate/ transfer skills that will benefit both workers and young teenage mothers.

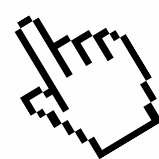

Participants had the chance to develop their awareness regarding the importance of Communication skills, information and best practices sharing and dialogue with interactive and informative activities, and work on skills development for teaching social & emotional training, well-being techniques of young teenage mothers and building teenage social competence.
